The opportunity to serve your country and help preserve our American way of life.

- Join an organization that "directly" assists in providing our military personnel the best tools, equipment, and technology for defending our freedom
- Assist in improving the latest military helicopters, missiles, rockets, lasers as well as segments of the "digital battlefield" or "virtual battlespace"
- Become a valuable contributing member of the U.S. Defense Team at a time in history when our military needs the best minds in the country

The knowledge that your day-to-day efforts are making our soldiers in the field more effective and successful makes this work particularly "fulfilling."
